

Better for *Farmers,* better for the *world*

Fair Trade enables farmers to support their families, stay on their land and protect the environment. Through democratically run cooperatives, small-scale farmers gain control of their own livelihoods and produce quality organic products. With higher prices from Fair Trade, farmers invest in education and social services for their communities.

Almighty God, Creator of heaven and earth:
We humbly pray that your gracious providence
may give and preserve to our use
the harvests of the land and of the seas,
and may prosper all who labor to gather them,
that we, who are constantly receiving good things
from your hand, may always give you thanks;
through Jesus Christ our Lord,
who lives and reigns with you and the Holy Spirit,
one God, for ever and ever. *Amen.*
