Through long-term trade partnerships with farmers and with the help of supporters like you Equal Exchange has proven that alternative trade works for farmers, consumers, and the planet we share. And yet, our mission is more threatened today than ever before. Corporate consolidation of the food system has reduced the power of farmers and consumers alike. Climate change is wreaking havoc on our farmer partners. A world-wide pandemic has disrupted supply chains. In order to withstand these mounting pressures, we must redouble our efforts to act in solidarity. **We've put together a collection of some of our best-selling products from small-farmer cooperatives around the world. Whether you buy a box for yourself or give one as a gift to friends and family this holiday season, you are taking a stand in solidarity with small farmers worldwide.**
